

# Low-Pro Service Trucks

1000 Steel 700/300

Finally...a truck that is truly user friendly. Our detailed fabricating, high quality components, innovative designs and easy to operate controls make the Dyna-Vac Low-Pro the obvious choice for your daily pumping services. Our fabricators and installers take pride in constructing your new truck and have a relentless drive for complete customer satisfaction. From the precision rolling of the tank cylinder to the turn of the last nut your assured a piece of equipment built with unquestionable standards. All our trucks are meticulously reviewed prior to leaving our shop for all aspects of operation. We've decided that these types of services wont make us the biggest manufacturer around but we'll settle for the best.
