

# Dyna-Vac Equipment

**Dyna-Vac Slide -In Units** are available for pick-up or flat bed mounting. High quality components, superior craftsmanship and 12 years in production make these units the best in the business...

## Vacuum Pump System

We don't skimp on protection for your pump. The units include full size primary and secondary traps to prevent carryover to the pump and an oversized oil catch muffler to eliminate oil spills on your truck.

The Honda 9HP Electric Start Engine powers the Pump with a double V-Belt drive. The slide tensioner makes belt adjustment fast and easy.

400/150 Pick-Up Mount

300/125 Stainless Steel

## Water Pump System

The Flo-Jet Water Pump provides 3gpm @ 35psi making wash down quick and easy. You can double your pump capacity by combining two pumps or we can supply an optional 4GPM 45PSI Flo-Jet Pump. For lots of cleaning power the Pump/Tec Work Horse Delivers 2.5GPM at 700PSI. Whichever you choose your guaranteed a dependable effective pump system.

## Construction

We fabricate all our components in house insuring quality material and construction from start to finish. Units are available in Mild Steel, Stainless Steel or light weight aluminum.

We can easily customize the unit to meet your needs with options like:

- Hose Reels
- Dual Sided Service
- Custom Configurations
- Any Color Finish

500/200 Frame Mount
